WORK EXPERIENCE

COFICAB Group, Tunis, Tunisia

Software Developer Intern — 01/2024 - 02/2024

- Designed **UML diagrams** for an HR training management system, reducing design errors.
- Managed a **PostgreSQL** database to track trained employees.
- Developed backend systems using **Node.js** and **Express.js**, creating RESTful APIs.
- Built a responsive frontend with **Angular**, improving training tracking efficiency.
- Integrated backend APIs with the frontend for seamless updates.
- Conducted thorough **testing** and **optimizations**, improving system performance by 15%.

Vectorys, Tunis, Tunisia

Software Developer Intern — 01/2024 - 02/2024

- Acquired foundational networking knowledge (TCP/IP, routers, network security).
- Developed a secure login system using EasyPHP, HTML, CSS, and JavaScript, enabling users to update personal information.
- Implemented user authentication, password management, and data modification features.

PROJECTS

Money Map (React.js, Node.js, SQL)

- Developed a web platform for small business financial management, featuring user authentication, account management, and tools for expense tracking, budgeting, and generating financial reports.

E-Uni (Python, MongoDB, Symfony, Angular)

- Created a platform for students, teachers, and staff to share courses and discussions, with user authentication, account management, and administrative tools, similar to Google Classroom.

WORDLE Game (HTML, CSS, JavaScript, EasyPHP)

- Designed a user login system and game interface for a Wordle game, with features to track current scores and save user high scores, delivering an engaging and interactive experience.

EDUCATION

Institut Supérieur des Études Technologiques de Charguia, Tunis, Tunisia

Bachelor's Degree in Information Technology — 09/2022 - 06/2025
